WF-C20750

WF-C21000

When you think of Epson, what do you think?

Epson is a leading provider of innovative technology solutions that help businesses succeed. In fact, you'll find our projectors, scanners and printers — and even robots — hard at work in companies all over the globe.

Here are just a few facts about Epson you may find surprising.

- 1 A legacy of innovation:** Seiko Epson Corporation holds 1,620 U.S. patents (50,000 patents globally) in imaging and printing technology.
- 2 Market leadership:** Epson is the #1 provider of point-of-sale printers, worldwide. But, our leadership doesn't stop there. We also offer the best-selling projectors in the world.
- 3 Global presence:** Epson has 23 manufacturing locations around the world, providing the infrastructure needed to reach a global marketplace.
- 4 Extensive expertise:** Over 1,000 engineers are continually pioneering groundbreaking Epson technology.
- 5 Great accountability:** Epson provides a single source for your business technology needs. And, we give you added peace of mind with world-class service and support.

Introducing the next-generation WorkForce Enterprise series.

The head of its class, by far.

ENTERPRISE

PrecisionCore Heat-Free Technology™

- > **Conserve energy** — lowest power consumption in their class¹
- > **Heat-Free Technology** — ink ejection only requires ink and printhead to produce output, so it can significantly reduce the amount of consumables waste

Productivity that puts you ahead of the game

- > **Breakthrough print speed** — up to 100 ISO ppm[†], the fastest in its class (WF-C21000)²
- > **Expedite your workflow** — 5,350-page maximum paper capacity³ for high-volume printing
- > **Work smarter** — dual-head, single-pass scanner simultaneously scans both sides of 2-sided documents at up to 110 ipm⁴
- > **Enhanced professional finishers** — the perfect solution for stacking, stapling and more

Quality without compromise

- > **Professional-quality output** — designed to deliver impressive charts, presentations and more
- > **Maximum impact, minimal costs** — high-resolution output from a cost-effective color MFP

So easy, it practically runs itself

- > **Do more, with an intuitive user interface** — scan to email or the cloud⁵, all from a user-friendly 9" touchscreen
- > **Print from wherever business takes you** — features Epson Connect™ solutions, offering a full suite of mobile printing capabilities⁶

Affordable operation — that's the bottom line

- > **Works with 110 V panels** — electrical retrofitting not required
- > **Manage your printer fleet and keep costs in check** — compatible with Epson and third-party software solutions for managing usage limitations, user authentication and more

A smarter approach to **productivity.**

What if your business printer could deliver speeds up to 100 ISO ppm¹, while still maintaining professional-quality output? What if it came from a department MFP designed to deliver everything that large workgroups need, with minimal hassle — because any downtime equals lost productivity.

Well, “what if” is now “what is”.

There’s fast — and then there’s **Epson® WorkForce Enterprise fast**

Touting the fastest print speed in its class², the WF-C21000 powers through any task — for record-breaking turnaround times. Walk up and print. There’s no need to wait for a long warmup sequence. And, with all three models, you can print 2-sided, with duplex print speeds that exceed many competitors’ simplex print speeds.

Duplex

Simplex

A simple print mechanism ensures ultra fast throughput, for remarkable turnaround times.

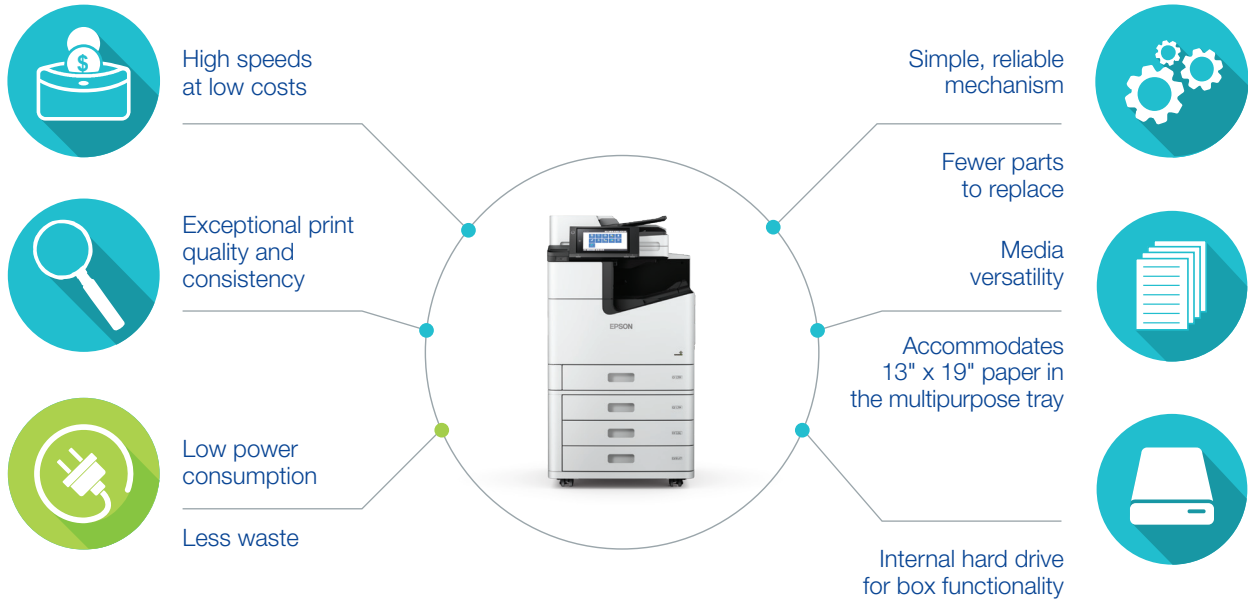

Epson brings the high-performance technology of our industrial-level presses to the business printer market. The result: a true paradigm shift for large workgroups and the way their business moves.

1 High-capacity cartridges, engineered for high-speed printing, yield up to 50,000 pages each⁷

SPEED

Engineered for efficiency

High-volume printing for hard-working groups

The WF-C20600, WF-C20750 and WF-C21000 move at the speed of business with features built for high-volume print jobs, including a maximum paper capacity of 5,350³ pages. There's no need for special "inkjet" paper; just load the trays and go. The printers come standard with four paper cassettes, and can accommodate an optional high-capacity input tray (sold separately). And, they feature the versatility that large workgroups need. You can even print on envelopes or 13" x 19" paper via the multipurpose tray.

2 Intuitive 9" touchscreen for easy navigation — scan to email, the cloud⁵ and more

3 A full suite of mobile printing capabilities⁶ to print from wherever business takes you

4 Dual-head, single-pass scanner simultaneously scans both sides of 2-sided documents at up to 110 ipm⁴

Inkjet vs. laser: Advantage inkjet.

Built with innovative PrecisionCore Heat-Free Line Head Technology, the WF-C20600, WF-C20750 and WF-C21000 deliver consistent color, from print to print and year to year — for the life of the products. Nozzle Verification Technology helps to maintain print quality between cleaning cycles. And, unlike laser printers, there's no direct paper contact involved in the printing process.

Simulated images

Consistent color, print to print

Epson delivers professional image quality and color consistency, even with large jobs, thanks to PrecisionCore Heat-Free Technology, which produces up to 40 million precise dots per second with astonishing ink placement accuracy.

Competitor

Roller delivery method

Paper is not held securely in place, which could result in defects

Epson Business Inkjet

Electrostatic transport belt

Paper is held securely in place for more accurate print quality

Advanced paper path design

With a simple paper path and innovative design, the WF-C20600, WF-C20750 and WF-C21000 offer remarkable reliability for high-speed print jobs.

Simulated images

Laser

Drum wears over time and needs to be replaced

Nozzle missing

With Nozzle Verification Technology

Epson Business Inkjet

Consistent high-quality output

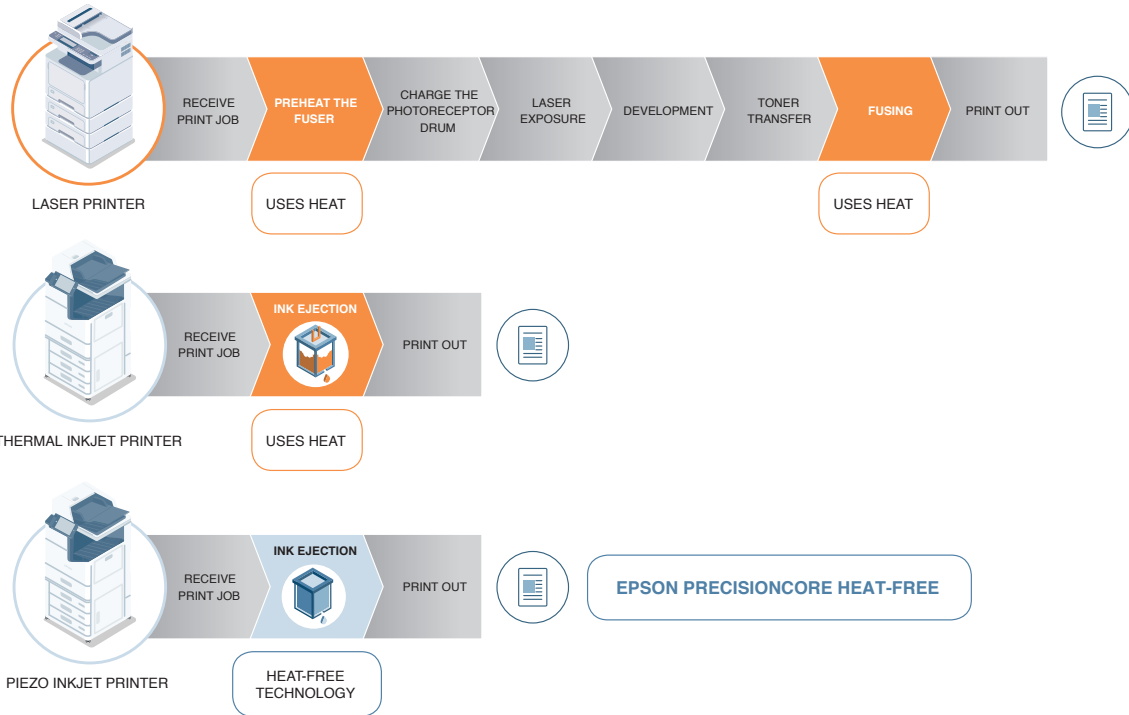

Nozzle Verification Technology

The printhead's advanced built-in sensing technology monitors nozzle health and automatically detects and adjusts printhead performance.

QUALITY

A simple design

PrecisionCore Heat-Free Line Head Technology means fewer steps involved in the printing process.

DURABrite® Pro Ink

- Engineered for affordable, high-volume printing
- Formulated for higher-speed printing
- Sharp text and brighter colors for professional-quality results
- Fast-drying pigment ink for worry-free handling

PrecisionCore Heat-Free Line Head Technology

The next generation of inkjet printing technology, PrecisionCore Heat-Free Technology delivers fast printing with professional-quality results.

At the core of this proprietary technology is the PrecisionCore® MicroTFP print chip, a digital chip that produces dots at the micron level — 1/100th the size of a human hair. It's this extraordinary focus on accuracy and detail that enables this technology to deliver outstanding image quality, whatever the task at hand.

With **PrecisionCore Heat-Free Line Head Technology**, only the paper moves — not the printhead, so you get more consistent color from print to print.

Print fearlessly, with few interruptions and low running costs.

When considering total cost of operation for any business printer, one should consider factors over and above the costs related to power and supplies — costs such as service and support.

The WorkForce Enterprise series features a simple design with fewer moving parts than typical color lasers which may result in less time and effort required for standard maintenance. Plus, with no need to heat a fuser, the WF-C20600, WF-C20750 and WF-C21000 consume less power than comparable color lasers¹, resulting in more efficient operation.

Vivid color. Fast print speeds. And Epson world-class support. You get it all with the WorkForce Enterprise series.

EASE OF USE

Easy, simple operation

The WorkForce Enterprise series makes it easy for large workgroups to print, copy, scan to email, and more. When it comes to replacing the ink, there are no messy toner cartridges to deal with and no waiting for parts to cool. And, a simple paper path means less hassle.

This intuitive 9" interface makes it easy to do more — print, copy, scan — with just a touch

Easy access to the printers' five high-capacity cartridges makes ink cartridge replacement fast and hassle free for fewer interruptions

WF-C21000 shown

Easily and safely remove paper in the event of a jam

Robust security support for added peace of mind.

Because the WF-C20600, WF-C20750 and WF-C21000 deliver a host of data encryption features and do not include a permanent storage device, they're ideal for implementing corporate security measures.

Avoid information leaks — restrict printer privileges for up to 10 users per printer, by department or assignment

Protect confidential documents — PIN certification for job release

LDAP support — leverage existing company directory services

Secure device communications — supports common security protocols including IEEE 802.1x, IPsec and SSL/TLS for email or cloud access

Limit access by unauthorized PCs — restrict user access by filtering IP addresses and/or ports

IPv6 support — future-proof network compatibility and security

TPM — dedicated processor stores encryption keys for hardware authentication

The WF-C20600, WF-C20750 and WF-C21000 are compatible with third-party software solutions for managing usage limitations, user authentication and more.

PEACE OF MIND

Connectivity that large workgroups demand

The WorkForce Enterprise series makes it easy to print from wherever business takes you, giving you more flexibility, regardless of location.

The freedom to print from the office or on the road

Easily connect your WorkForce printer to the wireless network — 802.11n is supported⁸. With Epson Connect solutions, the printer works seamlessly with tablets, smartphones and other mobile devices⁹. It's the ideal choice, because business can happen virtually anywhere — from the boardroom to the tarmac.

Wired networking

Built-in Ethernet makes sharing the printer on your network quick and easy.

Streamlined configuration and **management** for your printer fleet.

Epson Device Admin — A powerful device management solution, Epson Device Admin was designed to simplify the installation, configuration and management of networked Epson printers with alert notifications and usage reporting.

Epson Print Admin — An affordable, entry-level, user-friendly print management solution, Epson Print Admin was engineered to work with Epson products to enhance document output security, reduce costs and improve productivity. It's available in an embedded version for the WorkForce Enterprise series.

Epson Remote Services — A cloud-based fleet management tool, Epson Remote Services was built to work with Epson devices to help dealers improve service efficiency, reduce operating costs and raise customer satisfaction.

Document Capture Pro — A scanning software designed to help manage documents effortlessly, Document Capture Pro features functions such as Document Separation and Scan to Searchable PDF. Users can scan to cloud⁵ destinations such as Dropbox®, Box, OneDrive, Google Drive™, SugarSync, Evernote®, OneNote, WebDAV and SharePoint®.

Maximize your investment through **integration with third-party applications**

Epson Open Platform (EOP) makes our revolutionary multifunction printers (MFPs) fully flexible and customizable, enabling them to adapt to meet specific and changing customer requirements as business goals and enterprise IT systems evolve. **EOP supports applications for:**

- > Print management
- > Document management/ECM
- > Workflow

Designed to work seamlessly in existing environments, the printers are also SAP® compatible.

CONSERVE

Cut costs with low power consumption

The WF-C20600, WF-C20750 and WF-C21000 offer the lowest power consumption in their class¹, which helps reduce running costs.

Electrical retrofitting **not required**

The WF-C20600, WF-C20750 and WF-C21000 can be placed anywhere in the office — there are no special electrical requirements, such as a 220 V panel.

Robust **finishing options**

Staple Finishing — up to 50 sheets at a time

Hole Punch — 2/3 and 2/4 hole punch kits available

Booklet Finishing — capable of producing brochures, catalogs, course packs and more

Stacking — advanced workflows available with the ability to shift or simple stack

Epson WorkForce Enterprise WF-C20600, WF-C20750 and WF-C21000 Multifunction Printers

Standard features

- 1 Security features
- 2 Optional fax
- 3 Wireless capabilities
- 4 PCL⁹ and PostScript[®]
- 5 2,350-page paper capacity; four cassettes plus one multipurpose tray

Optional accessories

6 Professional booklet finisher with bridge unit*

The perfect solution for stacking, stapling, hole punching, booklet making, collating and more

*Professional staple finisher also available

7 Cassette lock

Secures paper tray for added peace of mind

8 High-capacity input tray

To accommodate up to 3,000 additional pages for a total of 5,350 pages

9 Optional connectivity

Support for up to 2 Ethernet ports and 3 Super G3 fax ports

Epson WorkForce Enterprise WF-C20600, WF-C20750 and WF-C21000 MFP Specifications
